

## Sustainable Warehouse Forum: Explore success stories that will inspire us to build better warehouses

**Friday, September 23, 2022**

8:30 - 11:30 am | The Dyer Center for Innovation & Entrepreneurship  
at Rockwell Integrated Sciences Center at Lafayette College

As a northeast logistics hub, warehouses are part of Lehigh Valley's economy. Our community is advocating for more sustainable buildings that will consider the region's health and the environment and this event will cover warehouse development in the region and future opportunities that incorporate green building standards.

If you would like to sponsor this event please complete the form below. If you have questions about the event or sponsorship, contact Marjorie Alexander, Education and Engagement Manager, at [malexander@greenbuildingunited.org](mailto:malexander@greenbuildingunited.org).
